- YELLOWHAWK TRIBAL HEALTH
- ZENITH ADMINISTRATORS

*NOTE: This list is revised annually. Incyte Pathology is not directly contracted with all payors. Some contracts may exist where individual payors do not have direct contracts with Incyte Diagnostics, but for which contracted benefits are extended through existing contracts with other networks or third party administrators. Insurance plans may change their contracted network without notice. Additionally, existing payors may initiate a new product at their discretion and a contract may not be immediately in place. It is the intention of Incyte Diagnostics to establish contracts with the insurance plans that we commonly bill. As a general practice, and courtesy to the patient, Incyte will bill payors with which we do not have current contracts, given the necessary information is provided.*
